

ST MARTINS SCHOOL

21 January 2022

Year 11 have completed their second week of mock exams which will finish next week. When all the papers have been marked we will issue the results at a 'result's day; similar to what normally happens on GCSE results day in the summer. They will then work with staff to identify areas that require more focus.

We have made the decision to retain face coverings in school both in indoor communal areas and classrooms. We currently have the highest number of covid cases that we have seen since the start of the pandemic for both students and staff. We want to do all we can to keep students in school, trying to find 'cover staff' to cover any staff absence is becoming more and more challenging for all schools. If we can reduce the spread we hope that we can continue to staff all lessons. Thank you for your understanding.

Guidance about isolation and lateral flow testing changed on Monday . [Please use this link to access the information](#)

Well done to our House Point of the week stars! These are the students who have earned the most house points this week in their year group. At the end of the school year there will be lots of prizes to win so keep up the fantastic work!

We believe that period products should be made available to those who need them in education as they're a necessity, not a luxury.

The Department for Education's (DfE) Period Product scheme to provide free period products to young people who need them in schools will enable all learners to participate fully in education by making period products available as and when they are needed.

School has consulted with our student leadership team and will ensure that products are available in tutor rooms, the first aid room in the hub, inclusion, the sports hall, and with staff in primary. This means that learners who

need them have access.

If any parent would like any more information please contact Mandi.jones@stmartins3-16.org

We are happy to discuss any request to send any products home if needed.
